

November 7, 2025

Good morning I.S.201! This is Grace Zhang from class 832, here with you on behalf of the S.E.A.L. Team.

Being curious is one of the most powerful ways to learn and grow. When you ask questions like “how does this happen?” or “where does this come from?”, you start to notice details you might have overlooked before. Curiosity helps you see that everything has a reason for working the way it does. It makes learning feel less like a chore and more like an adventure, because you’re not just memorizing facts, you’re figuring out how things connect, almost like a puzzle!

Curiosity also inspires creativity and problem-solving. When you really want to know how something works, you might try to experiment with different ideas or come up with your own explanations. That kind of thinking can lead to new ideas or even inventions! To sum up, staying curious keeps your mind active, which helps you keep learning and growing throughout life.

Like Marie Curie, today’s affirmation is: *“I am curious about how things work.”*

Thanks for listening and have a Feel Inquisitive Friday.

SEAL Team pledge:

We are the Dyker S.E.A.L. Team

Positivity is our dream

We teach it every day

To help others live the optimistic way

We learn to control our emotions and feelings

So, we always have effective social dealings

No stone left unturned; no person left behind

Every member of our team has the power to be kind

We spread kindness to our friends, families, and those who need a smile

When facing hardships and adversity, the S.E.A.L. Team goes the extra mile
